The AI physical security event

Earn CPE credits. Build real-world security expertise.

VerkadaOne 2026 CPE Program

VerkadaOne brings together security, IT, and public safety leaders to explore how modern physical security systems are designed, deployed, and scaled in real-world environments.

At VerkadaOne 2026, every session delivers practical insights while earning Continuing Professional Education (CPE) credits toward certifications like CISSP (ISC2), CPP (ASIS), Security+ (CompTIA), and GIAC.

1.0 CPE credit per session · Included with registration

Program overview

Attend expert-led sessions focused on designing, deploying, and scaling modern physical security systems.

All sessions are NASBA-registered through Carahsoft and aligned to frameworks like the ISC2 Common Body of Knowledge (CBK) and CMMI, ensuring globally recognized, technically rigorous content.

These aren't standard vendor presentations. Every CPE-certified course at VerkadaOne is developed by industry veterans and subject matter experts. We move beyond "how it works" to "how it scales" with a focus on governance, risk management, and the operational frameworks required to build a truly resilient organization.

Why attend

Dual-credentialing power

Every session is NASBA-registered through Carahsoft, and simultaneously mapped to ISC2, ASIS, CompTIA, and GIAC, so a single session can count toward multiple certifications at once.

Earn recognized credits

Sessions are aligned to the ISC2 CBK and CMMI framework, so what you learn is globally recognized and technically rigorous, not just a product walkthrough.

Built for your role

Choose from tailored tracks for law enforcement, public safety, and education and campus leaders.

Simple reporting

Each session includes specific domain mappings for CISSP, CPP, Security+, and GIAC certifications, so maintaining your credentials requires no guesswork.

Learning tracks

Track 1: Law Enforcement and Public Safety

Field of Study: Information Technology · 1.0 CPE per session

DFR & RTCC Blueprint: Infrastructure & Policy:

- Master the hardware and policy frameworks needed to integrate “Drone as First Responder” (DFR) feeds into cloud-native command centers.

Operational Excellence: Workflows & CJIS:

- Deep-dive into staffing models and incident response workflows that maintain strict CJIS compliance.

The Connected Community: Retail Synergy:

- Learn to build public-private partnerships using “Live Link” technologies to combat Organized Retail Crime (ORC).

Track 2: Education and Campus Resilience

Field of Study: Information Technology · 1.0 CPE per session

Defending the Edge: Cyber & Physical Convergence:

- Learn the technical path to transition from legacy NVRs to a Zero-Trust physical infrastructure to harden the network edge.

CMMI for Physical Security:

- Apply the Capability Maturity Model Integration (CMMI) process to your security roadmap to measure and scale organizational performance.

The Resilient Campus: A Higher Ed Roadmap:

- A strategic guide to building a unified, centralized security environment that enhances long-term campus resilience.

Guardrails for Growth:

- Learn how to use IT Strategic Governance via ARB, TRB and CAB when implementing a next generation physical security solution.

How to attend

Purchase a VerkadaOne ticket to access all CPE-eligible sessions. No separate registration required.

Register at Verkada.com/verkadaone or contact your Verkada sales representative for more information.

CPE requirements

- Delivery Method: Group Live
- Program Level: Basic (no prerequisites)
- Minimum 50 minutes attendance per session
- Scan in and out of each session
- Complete a short post-session evaluation

All CPE sessions are included with your VerkadaOne pass. No additional fees are required.

Supported certifications**Earn credits toward:**

- ISC2 (CISSP, SSCP, CC)
- ASIS (CPP, PSP, APP)
- CompTIA (Security+, CASP+)
- GIAC (GSEC, GSLC)

Detailed domain mappings for each session are provided at check-in and available in the event app, making self-reporting to each certification body straightforward.

Certification and reporting

- NASBA Certificate: Delivered via email within 30 days
 - Certificate of Attendance: Available shortly after each session for immediate self-reporting
-

NASBA statement

Carahsoft Technology Corp. is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be submitted to www.nasbaregistry.org.

About VerkadaOne

Join security, IT, and operations leaders for three days of innovation, hands-on learning, and direct access to the Verkada platform and product teams. See what's next, learn how it works, and leave ready to operate with confidence.

Tickets include full access to keynotes, breakout sessions, hands-on labs, and all event experiences.

Register at verkada.com/verkadaone

Early Adopter (Expires May 1) **\$799**

Early Bird (Expires August 1) **\$999**

General Admission (Expires September 18) **\$1299**
