

CD52-E-F FIPS Outdoor Dome Camera

Overview

The CD52-E-F has a durable, vandal-resistant design with an IP67 weather rating, advanced computer vision features, and incorporates encryption that meets the FIPS 140-2 standard that matters for a government-grade physical security solution. The CD52-E-F will run FIPS encryption in transit and at rest by default, with no additional settings or configuration required. It is also TAA and FY2019 NDAA compliant.

This hybrid cloud camera is easy to install and require no additional setup, downloads, or configuration. It has standard features like onboard storage and advanced motion-based insights, allowing organizations to quickly scale their security coverage and increase situational awareness across multiple locations. This camera also has powerful edge processing capabilities that deliver advanced computer vision features, including Verkada's People and Vehicle Analytics.

The CD52-E-F is compatible with the standard Verkada Command platform, as well as Command hosted in AWS GovCloud (exclusively available to government organizations in the United States¹).

1. All our cameras record in "adaptive quality," capturing both standard (SQ) and high quality (HQ) streams. SQ video is stored up to the amount of retention specified by the customer. The amount of HQ video stored on the camera will depend on the amount of motion detected by the camera over time. To learn more, visit our website: <https://docs.verkada.com/docs/adaptive-quality-recording-whitepaper.pdf>

2. Lens Distortion Correction (LDC) crops the sensor field of view to deliver a rectified, undistorted output image.

3. Frame rate can be adjusted by support.

4. Extended temperature range includes operating temperatures below -8.5°C / 16.7°F and assumes IR will be enabled.
