What is VerkadaOne?

VerkadaOne is an in-person event bringing stakeholders from across the industry together to meet, get inspired and most importantly, **rethink the future of physical security**. In the last six years, Verkada has transformed the physical security industry with its unified platform – but we are just getting started. Join us at VerkadaOne for three days of discovering, creating and shaping the future of physical security.

Why attend VerkadaOne?

As more and more physical security workloads migrate to the cloud, physical security is becoming an important tool for both security and connected building operations. Join VerkadaOne to stay at the forefront of the physical security industry with:

- Inspiring keynote events that showcase the future of physical security.
- Live, hands-on trainings that will allow you to build your knowledge, learn new skills and get certified. Trainings include the Verkada Certified Engineer Program and the Verkada Access Control Certification.
- Networking opportunities with stakeholders from across the Verkada ecosystem of partners, customers and champions.
- Hands-on demo opportunities with products and configurations from across the Verkada ecosystem.
- Powerful in person discussions that will help you stay on the cusp of industry trends and shape the future of physical security technology.
- 20+ breakout sessions featuring in-depth content across three compelling tracks, each designed to help you stay ahead.
- Intimate industry round tables designed to allow you to connect and learn from and connect with industry peers.
- Dedicated opportunities to unwind and see the best of Austin, Texas including dining, live music and more.

Who should attend?

Security decision makers

You are migrating physical security workloads to the cloud. Meet hundreds of other like-minded leaders and see the latest products from companies across the Verkada ecosystem.

VerkadaOne also offers dedicated networking and product exposure in the VerkadaOne Expo Center, allowing you to get the tools, connections and knowledge you need to deploy leading solutions.

IT professionals

VerkadaOne offers a full-speed mix of thought provoking breakout sessions, hands-on trainings, and, of course, inspiring content in our keynote events.

In addition, VerkadaOne offers in-depth technical sessions with our product and engineering teams that allow you to spend time with our experts to build your knowledge, learn new skills and better understand the technical side of Verkada like never before.

Partners

Stay at the cutting edge of the physical security industry and learn how to build a more valuable business partnership with Verkada.

In addition to watching the VerkadaOne keynote sessions and exploring the Expo Center, Verkada partners can also join the Verkada Partner Kickoff track within VerkadaOne to hear the latest partner announcements and learn more about new product releases.
