

Secure Manufacturing Sites with Integrated Access Control

Verkada Access Control provides real-time visibility into access-based events across manufacturing plants, factories, and facilities. Administrators can:

- Reduce liability and increase visibility by removing physical lock and key.
- SMS or Email alerts for security events such as Door Forced Opens or odd hour entries.
- Easily manage schedules across large groups of employees with varying schedules.
- Automated on-boarding / off-boarding of users to ensure only approved users have access to a facility.
- Lockdown facilities or a sub-segment of the facilities with a single press of a button or from Verkada Pass.

Standard Verkada Benefits

10-Year Product Warranty

Unlimited Users

Automatic Firmware & Software Updates

Technical Support

Lower 10 Year TCO

Predictable Renewal Costs

Key Benefits

Native Camera Integration

Bring access events and video footage together by adding cameras to doors in just a few clicks.

Simple to Install

With just an Ethernet cable, teams can bring doors online in minutes. No configuration software or calibration.

Centralized Management

Manage multiple sites behind a single pane with Verkada's cloud-based Command software platform.

Straightforward Pricing

Lower total cost of ownership with automatic updates and an industry-leading 10 year warranty on all hardware.

Easy to Use

Empower end-users with an intuitive software platform to reduce the dependence on your IT team.

Scalability

Add as many doors, credentials, and sites as needed. Credentials can be provisioned, utilized, and monitored across multiple sites.

Use Cases

Integrate with Azure AD, SCIM, and SSO

Integrate with leading SCIM and SSO providers to quickly commission workers and contractors, as well as reduce liability with automatic offboarding.

Tiered Access to IT, Offices, and Supply Rooms

Provision different Access Groups, such as delivery workers and contractors, with granular access to specific doors.

Centrally Monitor All Manufacturing Sites

Receive configurable SMS or Texts for tailgating, doors propped open, people of interest or off-hours entries.

Remote and Hands-Free Mobile Unlock

Enable BLE to use any smartphone as hands-free digital keycard, and reduce physical keys with smart locks. Unlock doors from the Verkada Pass app, or any web-based browser via Command.

Configurable Emergency Lockdowns

1. Trigger from Button, Command or the Verkada Pass app.
2. Lockdown specific areas and exterior doors while still allowing first responders access.

Automate Door Schedules for Production Hours

Schedule doors to automatically lock/unlock around work hours, and set exceptions to temporarily modify door access on holidays.

Where to Install?

- Warehouses
- Entrances and exits
- Supply rooms
- IDF and server rooms
- Offices
- Shipping and receiving docks

Customer Testimonials

Dairy Farmers of America

“Scalability is key as we go for an enterprise deployment, and I would recommend Verkada to any organization looking to strengthen and streamline its physical security system.”

Patrick Allen

Director of Network Services,
Dairy Farmers of America

Cerrowire

“If you want a security system that does everything and is easy to manage, scale, and use, Verkada is the way to go.”

Jeff Bishop

Network Analyst, Cerrowire

Yusen Logistics

“Verkada is intuitive, easy to use, and gives me everything I need at any point in time. We’re excited for feature sets that are continuously being added.”

Gene Stec

Director of IT, Contract Logistics and Facilities,
Yusen Logistics
