

The New Generation Physical Security and Smart Building Platform

Verkada's A&E New Construction team works alongside you during the design phase, to evaluate building and security systems and ensure customer requirements are met or exceeded. Designed with simplicity in mind, Verkada begins with a single pane of glass to eliminate complexities and scale easily across any number of sites.

Command Platform

Manage devices, users and sites from a single pane of glass — accessible from a simple web browser or mobile app.

Access Control

Easily manage doors and employee credentials with Global Access and Active Directory integrations.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Mailroom

Streamline mailroom management and safeguard assets with native camera integration.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Air Quality Sensors

Monitor environments for air quality, temperature, humidity, motion, noise, smoke and vape emissions.

Guest

Personalize the check-in experience with custom sign-in flows, complete with security and health screens.

Intercom

Answer calls from anywhere with sharp intercom video, clear audio and four smart receiver methods.

Why Verkada?

No NVRs or DVRs
– up to 365 days of onboard storage

Unlimited user seats
and cloud archiving

Up to 10-year warranty
and predictable renewal costs

24/7 technical support
via email, phone or live chat

Easy multi-site management
with cloud-based software

Automatic updates
to unlock features and maintain security

Key benefits

Easy to install and manage

Bring plug-and-play devices online in minutes and eliminate the need to maintain external servers.

Lower maintenance costs

Reduce the total cost of ownership with straightforward pricing and a 10-year hardware warranty.

Retain value over time

Always evolving, the Verkada system automatically updates with the latest software and firmware enhancements.

Monitor from anywhere

Remotely manage doors, devices, and users from any browser or mobile device – no VPNs or configurations required.

Native video integration

Video security natively integrates across the product ecosystem, enabling a seamless user experience.

Proactively deter threats

Set proactive alerts for motion, vehicles, or people of interest to be notified of intruders or suspicious activity.

Trusted by over 20,000 organizations

Customer stories

DeMatei & Co., Inc

"Both installation and pricing were simple and straightforward, the quote is just two-lines: the cameras and the Command software license. Compared to the NVR solution, Verkada is a more advanced camera system, provides regular software improvements and has no hardware maintenance costs—it was an easy decision."

Caitlin Hoertkorn,
Vice President

Dal Realty Management Corp

"I recommend the free trial to everyone – they sent us a unit and we had it plugged in and working in seconds, it was simple and seamless to use these cameras. In the two years we've had the Verkada system, they've upgraded everything automatically and they've built additional solutions. The mobile app is an extension of the desktop app and solves all our needs."

Santo Dalmazio,
Owner and Managing Partner

Clwdalyn Housing Association

"We have a large footprint and variety of buildings to secure, so integrating cameras with access control is beneficial for us. Being able to combine all our physical security needs onto one platform was a key driver in our decision to go with Verkada."

Nick Peers,
IT Technical Manager
