

The New Generation Physical Security and Smart Building Platform

Verkada's A&E New Construction team works alongside you during the design phase, to evaluate building and security systems and ensure customer requirements are met or exceeded. Designed with simplicity in mind, Verkada begins with a single pane of glass to eliminate complexities and scale easily across any number of sites.

Command Platform

Manage devices, users and sites from a single pane of glass – accessible from a simple web browser or mobile app.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Access Control

Easily manage doors and employee credentials with Global Access and Active Directory integrations.

Air Quality Sensors

Monitor environments for air quality, temperature, humidity, motion, noise, smoke and vape emissions.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Guest

Personalize the check-in experience with custom sign-in flows, complete with security and health screens.

Mailroom

Streamline mailroom management and safeguard assets with native camera integration.

Why Verkada?

No NVRs or DVRs
– up to 365 days of onboard storage

Unlimited user seats
and cloud archiving

10-year product warranty
and predictable renewal costs

24/7 technical support
via email, phone or live chat

Easy multi-site management
with cloud-based software

Automatic updates
to unlock features and maintain security

Key benefits

Actionable insights

Speed up investigations with powerful forensics to filter people, vehicles, motion and other attributes.

Minimal bandwidth impact

Lower IDF/MDF footprint while scaling devices, which operate in ‘steady state’ at only 20 kbps.

Monitor from anywhere

Remotely access devices across sites from a web browser or mobile app in minutes.

Faster incident response

Know instantly when Person of Interest or license plate alerts; plus, leverage professional monitoring to detect and respond to unusual activity.

Gain actionable insights

Leverage AI-powered analytics – such as occupancy trends – to inform business operations while enhancing safety.

Liability protection

Save footage locally with up to 365 days of onboard camera storage or to unlimited cloud-based archiving, timestamped for usability in court.

Customer stories

Courthouse Commons

“Verkada’s web platform is the most user-friendly I’ve experienced compared to other solutions on the market. Not only is it quick to learn, it’s also easy to navigate and use on a day-to-day basis. Despite being the same price as our previous system, investigations now take a fraction of the time and the quality is so much better.”

Paige Hughes,
General Manager of Meridian

Dal Realty Management Corp

“We can jump back a year, six months, or a few minutes in a matter of seconds. We can grant others quick access, including our attorneys, insurance companies and the New York Police Department. The system solves all our needs for archiving, downloading video and viewing live video. The mobile app is an extension of the desktop app and solves all our needs.”

Santo Dalmazio,
Owner and Managing Partner

Grainger Plc

“Verkada gives us the peace of mind to know our sites are protected. If anything happens, we have 4K footage to prove it. Since the shopping center has activity at all hours of the day, we have time-based motion alerts set up to notify us of any suspicious activity happening on the property in real-time.”

Caitlin Hoertkorn,
Vice President, DeMatei & Co
