

Trusted Protection for Executive Leadership

Overview

Safeguard your executives with next-gen cloud physical security and white glove advisory services. Make Verkada your force multiplier for board-mandated protection of high-profile individuals – at private residences and special events.

Trusted by Leading Organizations

Key Benefits

Unify visibility of executives' residences

Manage executives' residences remotely from any smartphone, tablet, or browser – or integrate directly with your GSOC. Executives and their family members can also view live camera feeds through an easy-to-use mobile app.

Guard entrances and verify guests

Screen visitors at gates before granting entry with integrated video intercoms and cameras. When household staff depart, revoke access credentials in seconds to maintain strict control over who can enter.

Equip spaces with discreet panic buttons

Panic buttons placed throughout the home allow executives and their loved ones to discreetly call for help when needed. Linked cameras instantly surface relevant footage, helping security teams respond quickly and with full context.

Add portable security for events

Quickly deploy mobile security solutions that set up in minutes. Pair cameras with Wi-Fi or LTE gateways to provide power and connectivity for continuous monitoring and executive protection at special events and gatherings.

Investigate incidents in seconds

Quickly zero in on suspicious activity, individuals, or vehicles by applying filters or using natural language to describe specific characteristics. Instantly build a timeline of events to see where an individual or vehicle has been spotted.

Get notified of potential threats

Receive real-time alerts for watchlisted individuals or vehicles, loitering, perimeter breaches, or unusual after-hours activity at residences or event sites. Share live feeds with your on-site team to coordinate a rapid response.

Why Verkada?

No NVRs or DVRs
– up to 365 days of onboard storage

Unlimited user seats
and cloud archiving

Up to 10-year warranty
and predictable renewal costs

24/7 technical support
via email, phone or live chat

Easy multi-site management
with cloud-based software

Automatic updates
to unlock features and maintain security

Recommended Solutions

Video Security

AI-enabled cameras offer 24/7 recording, up to 365 days of onboard storage, and industry-leading image quality. No DVRs or NVRs needed — just a PoE connection.

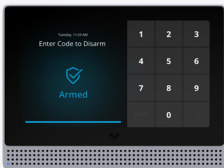

Access Control

Remotely manage access to key areas across an executive's residence. Verkada video footage natively integrates with door events to speed up audits and investigations.

Video Intercom

Answer calls, grant entry, and operate vehicle gates remotely. Deny access to flagged individuals or license plates with real-time alerts during calls.

Alarms

Get a birds-eye view of activity at each residential site, including arming and disarming, ongoing and resolved alarms, as well as system health.

Panic Buttons

Immediately call for help with our wireless panic button, while leveraging Verkada cameras to provide additional context about an incident.

Gateways

Deploy Verkada devices at events or hard-to-wire locations — anywhere with cell signal or Wi-Fi via Verkada gateways.

"It's been helpful to quickly locate specific events, individuals, or cars without sifting through hours of footage."

Jeff Graves

Director of IT,
Los Angeles Rams

Par Pacific

"It's like having an extra layer of security without needing to add more personnel."

Nathan Peters

Director of Technology,
