

One Platform to Simplify Healthcare Security

Improve security across healthcare facilities, while improving patient care and protecting privacy. Verkada is a fully integrated hardware and software solution that combines intelligent devices with an easy-to-use platform, enabling secure remote monitoring and faster incident response across departments.

Improve patient care

Maintain HIPAA compliance

Protect staff and patients

Key benefits

Preserve patient privacy

Safeguard Protected Health Information (PHI) to assist with HIPAA compliance by leveraging role-based access, live-only viewing, face blurring, privacy regions and more.

Protect staff with panic buttons

Easily view camera feeds associated with a button's location, call the police or initiate a lockdown with one press.

Improve patient satisfaction

Be alerted if hospital conditions — including noise and air quality — rise above or fall below certain thresholds.

Restrict access with ease

Set door schedules around hours of operation, along with site and role-based access to privileged areas.

Leverage virtual guards

Keep patients safe around-the-clock and reduce false alarms with video-verified intrusion detection.

Monitor from anywhere

Find, save, and share footage on-the-go. Share live camera feeds with local authorities in seconds.

Customer stories

Avita Pharmacy

"If someone turns in a forged or altered prescription, we can use face search to identify the individual and find when it happened. We can also see if they've been at one of the locations in the past."

Marshall Frost,
VP of Corporate Systems

El Centro Regional Medical Center

"The People Analytics filters make it possible for my team to find the footage we're looking for in seconds. It no longer feels like we're looking for a needle in a haystack."

Darryl Mark,
Information Services Manager

Chapters Health System

"Being in healthcare, there are strict laws around HIPAA, HITECH, Joint Commission and patient privacy we follow. Verkada makes it easy to restrict camera access based on sites or limit to live-only viewing."

Michael Parkin,
Director of IT Security

Why Verkada?

No NVRs or DVRs
– up to 365 days of
onboard storage

Unlimited user seats
and cloud archiving

Up to 10-year warranty
and predictable
renewal costs

24/7 technical support
via email, phone
or live chat

**Easy multi-site
management**
with cloud-based
software

Automatic updates
to unlock features and
maintain security

Command Platform

Manage devices, users and sites from a single pane of glass — accessible from a simple web browser or mobile app.

Guest

Personalize the check-in experience with custom sign-in flows, complete with security and health screens.

Mailroom

Streamline mailroom management and safeguard assets with native camera integration.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to deliver actionable insights in real-time.

Air Quality Sensors

Monitor environments for air quality, temperature, humidity, motion, noise, smoke and vape emissions.

Intercom

Answer calls from anywhere with sharp intercom video, clear audio and four smart receiver methods.

Access Control

Easily manage doors and credentials across departments with Global Access and Active Directory integrations.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.
