

# Simplify Security Management with a HIPAA-Compliant Solution

With Verkada's cloud-based security platform, healthcare organizations are modernizing the way they manage and access physical security across their facilities. Learn how healthcare professionals are using Verkada to enhance patient care and security operations, all while safeguarding sensitive information.

## Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

## Access Control

Manage doors, credentials and users across sites at ease with global access and active directory integrations.

## Sensors

With a collection of eight onboard sensor readings, monitor for the health and safety of all environments.

## Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

## Verkada Guest

Personalize the check-in experience for all types of visitors while integrating with cameras and access control.

## Key Benefits

### HIPAA-Compliant for Patient Privacy

Control access with role-based permissions and create blackout zones with Privacy Screens.

### Prevent Medical Supply Theft

Track access to storage rooms and know instantly when activity is detected in key areas.

### Lockdown Doors in Seconds

Create custom Lockdown events to secure doors in the event of an emergency.

### Search Filters for Quick Investigations

Use powerful video forensics to filter people, vehicles, motion, and other attributes.

### Share Video for Incident Response

Access, download, and share footage from any browser or mobile device in minutes.

### Monitor From Anywhere

Remotely access doors and cameras without any VPNs or complex configurations.

## Built for Your Organization

### IT Professionals

- Plug-and-play with a single PoE connection — no NVRs, or complex configurations.
- Integrates with existing IT workflows such as active directory and MFA.
- Secure by default — safeguard PHI and ePHI with end-to-end encryption.

### Administrative Professionals

- Monitor sites from one cloud-based platform, easily accessible through any web browser or mobile device.
- Easily isolate events with advanced filters for quick investigations.
- Share live feeds, floor plans, or archived footage via SMS, MP4, or direct link.

### Healthcare Leaders

- Ensure PCI compliance with full audit logs and a record of user, environmental, video or access-based events.
- Control costs with predictable TCO and industry-leading 10 year warranty.
- Optimize hospital staffing and patient satisfaction with data-driven insights.

## Customer Testimonials

### Avita Pharmacy

“If someone turns in a forged or altered prescription, we can use face search to identify the individual and find when it happened. We can also see if they’ve been at one of the locations in the past.”

#### Marshall Frost

VP of Corporate Systems

### El Centro Regional Medical Center

“The People Analytics filters make it possible for my team to find the footage we’re looking for in seconds. It no longer feels like we’re looking for a needle in a haystack.”

#### Darryl Mark

Information Services Manager

### Chapters Health System

“Being in healthcare, there are strict laws around HIPAA, HITECH, Joint Commission, and patient privacy we follow. Verkada makes it easy to restrict camera access based on sites, or limit to live-only viewing.”

#### Michael Parkin

Director of IT Security

### Coastal Family Health Center

“Installation was simple, the first camera was up and running in just ten minutes. The software is so intuitive. Not long after we set up the system, it felt like we had been using it forever.”

#### Chuck Clark

Director of IT

### The London Clinic

“I log into an app and instantly see what’s happening, no configurations required. All I had to do was download the Verkada app.”

#### Lee Humphries

General Manager of Security Operations

### Mental Health Center of Denver

“With Verkada, we can just send a link to the footage, reducing the amount of time that our IT department actually has to spend.”

#### Christopher Walker

Director of IT
