

Improve Safety and Security with a Fully Integrated Solution

With Verkada, hardware and software are fully integrated in an intuitive, cloud-based platform to enable secure remote monitoring and faster incident response. Learn how nonprofits use Verkada to strengthen safety while simplifying security management.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Access Control

Manage doors, credentials and users across sites at ease with global access and active directory integrations.

Sensors

With a collection of eight onboard sensor readings, monitor for the health and safety of all environments.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Verkada Guest

Personalize the check-in experience for all types of visitors while integrating with cameras and access control.

Key Benefits

24/7 Proactive Security

Know instantly when repeat offenders are on site or suspicious activity occurs after-hours.

Real-Time SMS Alerts

Set proactive alerts to be notified of suspicious activity occurring in critical areas or after hours.

Search Filters for Quick Investigations

Use powerful video forensics to filter people, vehicles, motion, and other attributes.

Share Video for Incident Response

Share live video, footage or entire floor plans with first responders from any browser or mobile device in minutes.

Lockdown Doors in Seconds

Create custom Lockdown events to secure doors in the event of an emergency.

Monitor From Anywhere

Remotely manage doors, cameras, and sensors from any browser or mobile device – no VPNs or configurations.

Built For Your Organization

IT & Security

- Plug-and-play with a simple PoE connection — no NVRs, DVRs, or complex configurations.
- Set user-based roles across your organization to ensure proper access.
- Secure by default with automatic updates and end-to-end encryption.

Facilities & Maintenance

- Monitor sites from one cloud-based platform, easily accessible through any web browser or mobile device.
- Control costs with predictable TCO and industry-leading 10 year warranty.
- Detect threats with SMS alerts for People of Interest and unusual activity.

Safety & Loss Prevention

- Quickly isolate events with advanced filters for quick investigations.
- Share live feeds, floor plans, or archived footage via SMS, MP4, or direct link.
- Ensure liability protection with on board storage for up to 365 days and unlimited cloud archiving.

Customer Testimonials

Goodwill of Greater Washington

“It’s a great feeling, being able to tell leadership and on-site teams about how Verkada proactively alerts us of any unusual activity that’s detected. Improving physical safety (at our facilities) feels significantly more achievable now.”

Nicholas Paczkowski
Director of Safety and Loss Prevention

Boys & Girls Clubs of Greater Scottsdale

“Updates are always coming down the pipeline and the system is constantly improving. As the technology evolves and the feature set grows, we keep finding new ways that it generates value for us.”

Jon Blazak
Chief Financial Officer

Salvation Army

“It takes minutes to find and share footage. You can send video clips or a live feed via SMS or a link to view on a laptop, phone, or tablet. The ability to zoom in to see what is going on –without quality being compromised– is really incredible.”

Isaac Samuel
IT Manager

The Greater Wichita YMCA

“Our staff is able to address any issues quickly—sometimes even before they become issues. It’s transformed the approach we take to ensuring safety at these sites, and it’s cut down on both the frequency of issues and our response time to them.”

Brian Pond
CIO and VP of Technology

Step Up for Students

“Verkada’s two-line pricing model makes so much sense. No hidden costs, no unforeseen charges for necessary things like software updates. The total cost of ownership is much lower.”

James Oliva
Director of Information Security

Second Chance

“With Verkada, I utilize 1/100 of the bandwidth I did with the previous systems. Installing cameras was easy, I used the mobile app to monitor the setup so we can address any issues in real-time.”

Peter LaMacchia
Director of Asset Protection
