Mounting Options

Server Rack Mounting

The ACC-N-MNT-HRACK rack-mount accessory is required for all three 1U setups, providing the necessary width to bridge a standard 19-inch rack. This system allows you to securely rack-mount a single NP21, a dual-unit NP21 pairing, or a NP21 with an external amplifier.

Single NP21

Dual NP21

Non-threaded Rack

Install the M5 cage nuts in the rack, then use the M5 rack screws to mount the NP21.

M5 Threaded Rack

Use the M5 rack screws to mount the NP21 directly.

10-32 Threaded Rack

Use the 10-32 mount screws and washers to mount the NP21 directly.

Installation

Server Rack Mounting – Single NP21

Retrieve ACC-N-MNT-HRACK (NP21 Mounting Accessory Kit).

Flip the Audio Player over.

Attach the Left Bracket from ACC-N-MNT-HRACK onto the bottom left side of the Audio Player.

Attach the Spacer Bracket from ACC-N-MNT-HRACK onto the bottom right side of the Audio Player.

Mount the Audio Player in the rack using the appropriate hardware for your rack type. See **Mounting Options** for details.

Installation

Server Rack Mounting – Dual NP21

Retrieve ACC-N-MNT-HRACK (NP21 Mounting Accessory Kit).

Flip the Audio Player over.

Position the two Audio Players next to each other.

Attach the Mounting Brackets onto the outer edges using the provided screws.

Attach the Connector Plate onto one of the Audio Players using the provided screws.

Peel the backing off the Center Isolator Pad, then align it with the edges of the Connector Plate and press it into place.

Attach the Connector Plate onto the other Audio Player using the provided screws.

Mount the Audio Player in the rack using the appropriate hardware for your rack type. See **Mounting Options** for details.
