

Simplify and scale security across campuses

Today, many schools are making it a priority to invest in security technology to better protect staff and students. Verkada is a fully integrated hardware and software solution that combines intelligent devices with an easy-to-use user interface platform.

Command

Manage multiple campuses behind a single pane of glass, and help teams respond faster with an intuitive dashboard, accessible from any web browser or mobile device.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to reliably deliver insights in real-time.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Access Control

Easily manage doors, credentials, and users across campuses with global access and active directory integrations.

Guest

Personalize the check-in experience with custom sign-in flows, complete with security and health screens.

Sensors

Monitor environments for air quality, temperature, humidity, motion, noise, and vape emissions.

Mailroom

Streamline mailroom management and easily safeguard assets with Verkada's camera integration.

Why Verkada?

No NVRs or DVRs
- up to 365 days of onboard storage

Unlimited user seats
and cloud archiving

10-year product warranty
and predictable renewal costs

Technical support
via email, phone, or live chat

Easy multi-site management
with cloud-based software

Automatic updates
to unlock features & maintain security

Key benefits

Monitor from anywhere

Remotely manage doors, cameras, and sensors from any browser or mobile device – no VPNs or configurations.

Detect vaping & bullying

Monitor school environments for smoke and vape emissions, as well as sudden changes in noise levels.

Proactively deter threats

Set proactive alerts for Motion, Vehicles, or People of Interest to be notified of intruders or suspicious afterhours activity.

Quickly respond to incidents

Share live video, footage or entire floor plans to first responders from any browser or mobile device in minutes.

Prevent authorized visitors

Conduct security screens with cloud-based visitor management that integrates with cameras and access control.

Lockdown doors in seconds

Lockdown doors from a panic button, web browser, or mobile app, while still allowing first responders access.

Trusted by over 2000 school districts

“Verkada gives us the tools we need to efficiently respond to emergencies, from sharing live videos to quickly locking down classrooms.”

Luis Alejandro Wong, Chief Technology Officer, Imperial County Office of Education

“Having an all-in-one system like Verkada means I can centrally access cameras and sensors on one platform. If I receive a sensor alert, I can quickly access that data and the corresponding video footage without having to leave Command.”

John Langrill, Director of Information Technology and Campus Management, Chartwell School

“Verkada is a one-stop shop where we know we are under the umbrella of technology that not only works well independently, but even better together.”

Meredith Essalat, Head of School, Mission Dolores Academy

“Verkada ticked all the boxes for us: cloud-based, reliable, remotely accessible on a mobile app, and it has a notification system. Being able to generate a text alert when someone is on-site who shouldn't be helps keep our schools safe.”

Bruce Johnson, IT Director, RSU 13
