

Simplify Citywide Security with a Fully Integrated System

With Verkada's cloud-based security platform, local governments are modernizing the way they manage and access physical security across their facilities. Learn how Verkada's powerful solution makes it simple to protect citizens and critical infrastructure from a centralized platform.

Products

Video Security

- Scale cameras as needed across all facilities and departments.
- Provide enhanced visibility to protect your citizens, visitors, buildings and assets.

Access Control

- Provision departments and staff members with tiered access levels.
- Schedule doors to lock or unlock based on hours of operation.

Sensors

- Maintain optimal conditions to protect sensitive technology and equipment.
- Receive alerts for any sudden changes in temperature, noise levels, or air quality.

Key Benefits

Real-Time SMS Alerts

Set proactive alerts to be notified when suspicious activity occurs in critical areas or after hours.

Lockdown Doors in Seconds

Create custom Lockdown events to secure public and government buildings in the event of an emergency.

No Hidden Costs

US-based technical support, software upgrades, unlimited user seats and cloud archiving are included in the software license.

Search Filters for Quick Investigations

Use powerful video forensics to filter people, vehicles, motion, and other attributes.

Share Video for Incident Response

Access, download, and share footage from any browser or mobile device in minutes.

Monitor From Anywhere

Remotely access doors, cameras and sensors without any VPNs or configurations.

Built For Your Organization

IT & Security Professionals

- Plug-and-play with a single PoE connection – no NVRs, servers, or complex configurations.
- Integrates with existing IT workflows such as active directory and MFA.
- Set user-based roles across your organization to ensure proper access.

Local Authorities & Law Enforcement

- Detect threats with customizable SMS alerts for People of Interest and unusual activity.
- Easily isolate events with advanced filters for quick investigations.
- Share and receive live links to footage for real-time incident response.

Mayors & City Managers

- Oversee all sites on one cloud-based platform, easily accessible through any web browser or mobile device.
- Control costs with predictable TCO and industry-leading 10-year warranty.
- Easy-to-use without time-consuming training or onboarding.

Customer Testimonials

City of Edinburg

“We’ve drastically reduced the number of IT support tickets after deploying Verkada. Our departments have viewing access to their site as soon as they log in, the whole platform is very straightforward and easy to use.”

Daniel Vera
Director of IT

City of Arlington

“I can instantly view cameras on my phone and share footage through a link, while our officers can unlock doors from their phone if they forget their key card. Anyone who can work a smartphone can work the system.”

Jonathan Ventura
Chief of Police

City of Takoma Park

“We use Motion Grid Search to immediately find what we need. Some searches that would’ve taken 2-3 days now take 10-15 minutes. It’s been a huge change for the city.”

Lars DeSalvio
Director of IT

City of Havre de Grace

“The system is always evolving, driving up its value over time. I log in, see a notification and instantly have access to new features and capabilities.”

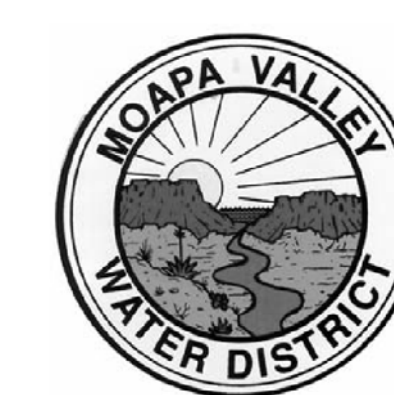

Jeff Thompson
IT Manager

City of Parkersburg

“The camera is at my fingertips whenever I need to go back days or weeks at a time to review surveillance in a certain area. It’s been a huge asset as an investigator.”

Nathaniel Duley
Detective

Moapa Valley Water District

“By enabling motion notifications for key areas, we’re notified any time unauthorized activity is detected after hours. These alerts keep my team in the know, even when we’re not monitoring the system.”

Joe Davis
General Manager
