Mounting on a small pole

For poles with diameter of less than 3.2" (81 mm).

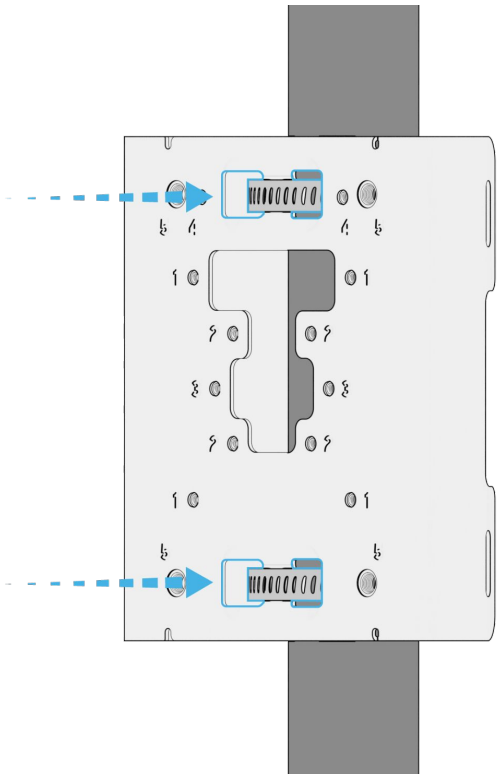
A zip tie is provided to aid in the install process. Make sure to remove it once installation is completed.

Position the Pole Mount in the desired location.

Route ***the temporary zip tie*** through the top, front slot and around the pole.

Route a small pole strap through the bottom, front slot and around the pole. Tighten with a #2 Phillips head screwdriver or drill bit.

Remove the ***temporary zip tie*** with a utility knife and repeat the former installation step on the top, front slot.



Secure the mount to the pole by tightening the pole straps.

Once complete, mount a compatible Verkada product onto the Pole Mount.

See the install guide of your compatible Verkada product for further mounting instructions.

Mounting on a large pole

For poles with diameter of more than 3.2" (81 mm).

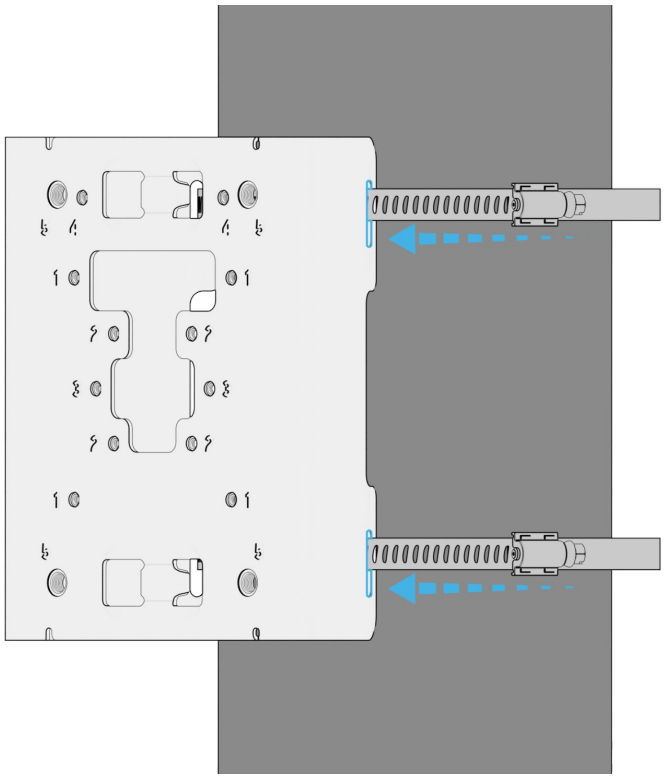
A zip tie is provided to aid in the install process. Make sure to remove it once installation is completed.

Position the Pole Mount in the desired location.

Route ***the temporary zip tie*** through the top, side slots and around the pole.

Route a large pole strap through the bottom, side slots and around the pole. Tighten with a #2 Phillips head screwdriver or drill bit.

Remove the ***temporary zip tie*** with a utility knife and repeat the former installation step on the top, side slots.



Secure the mount to the pole by tightening the pole straps.

Once complete, mount a compatible Verkada product onto the Pole Mount.

See the install guide of your compatible Verkada product for further mounting instructions.
