Introduction

Overview

Order of assembly:

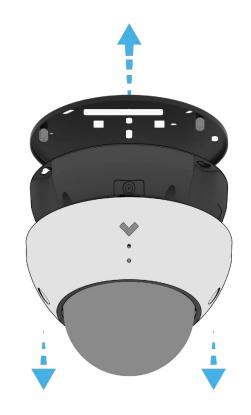

Installation

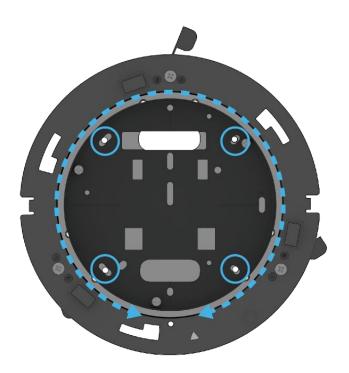

Mounting (1/3)

Disassemble camera by undoing the T10 security screws and remove the top cover.

Loosen the thumbscrews to separate the camera from its mount plate.

Attach the camera mount plate to the Recess Ceiling Mount Bracket using the provided M4 screws.

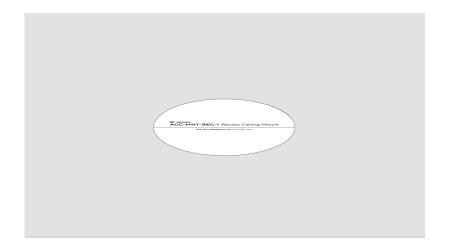

Installation

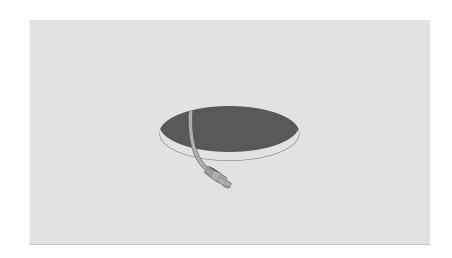

Mounting (2/3)

Identify the desired mounting location on the ceiling and adhere the Hole Cutout Template.

Cut a hole, following the outline of the template, using a utility knife.

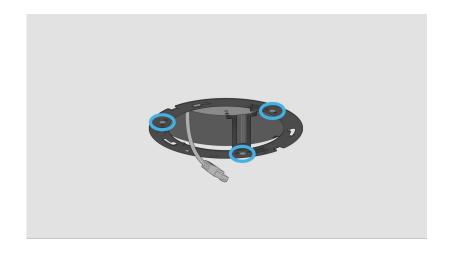

Bring the Ethernet cable through the hole.

Thread ethernet cable through mounting bracket and camera mount plate.

Tighten screws (circled in blue) using a #2 Phillips driver to clamp the mounting bracket into the ceiling.

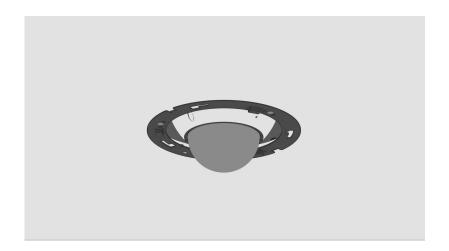

Installation

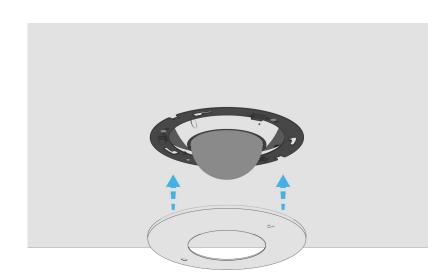

Mounting (3/3)

Connect the ethernet cable to the camera, then attach the camera to its mount plate and tighten thumbscrews with a #2 Phillips screwdriver.

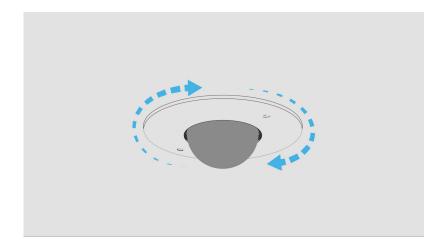

Reattach the top cover to the camera and tighten the T10 screws.

Align the T10 security screw hole on the plastic cover with the blue indicator on the mounting bracket, and twist to lock the cover.

Tighten the T10 security screw on the plastic cover.
