Leading Cloud-Based Physical Security

Verkada is #1

in cloud video security and cloud access control*

Key benefits

Unified platform

Protect people, assets, and places from a single integrated platform with robust privacy controls.

Powered by AI

Get proactive notifications and streamline investigations with powerful AI-enabled analytics.

More than security

Improve health and safety, support compliance, and increase operational efficiency with video-based insights.

Command

Manage devices, users, and sites from a single pane of glass, accessible from a simple web browser or mobile app.

Access Control

Manage employee access and credentials from a web-based platform with built-in identity management integrations.

Intercom

Answer calls from anywhere with sharp intercom video, clear audio, and four smart receiver methods.

Workplace

Manage visitors and deliveries with guest and mailroom software, enhancing security along with workplace operations.

Connectivity

Deploy Verkada cameras and devices in hard-to-wire locations using cellular or Wi-Fi gateways.

Video Security

Hybrid cloud cameras offer onboard storage and edge-based processing to deliver AI-powered insights in real time.

Alarms

Catch and respond to break-ins with cloud-managed intrusion detection and 24/7 professional monitoring.

Air Quality Sensors

Monitor environments for temperature, humidity, noise, particulate matter, vape emissions, and other air quality conditions.

Command Connector

Seamlessly transition to the cloud by bridging your non-Verkada cameras to Command and unlocking advanced video analytics.

AI to protect the physical world

Freeform text search and alerts

AI-powered unified timeline

Person or number plate of interest

AI-powered deterrence

Occupancy and queue trends

AI-powered incident summaries

Automatic number plate recognition

Fighting and slip-and-fall detection

Face authentication to unlock doors

Live face blur

Loved by every team

IT professionals

Near-zero maintenance with automatic security updates as well as encryption in transit and at rest to protect against known and emerging threats.

Security and loss prevention

Proactively mitigate threats, monitor from anywhere and receive real-time alerts of meaningful events.

Facilities and operations

Gain actionable insights to protect people, assets and facilities — while ensuring efficiency and productivity.

Signify

Optimised security coverage

"We transformed our approach to security, achieving a fivefold increase in the speed of our investigations and reducing our reliance on on-ground patrols."

Kfir Atias,
Head of Global Security Operations

GAIL's BAKERY

Video insights for better operations

"With the heatmaps, we can see exactly how customers move through the store, where they spend the most time, and which areas are underutilised. This data allows us to optimise our layouts even further."

Brett Parker,
Head of Properties
GAIL's Bakery

TRINITY COLLEGE CAMBRIDGE

All-in-one system

"It's very much about maintaining a secure but welcoming environment. We've been able to strengthen safety in a way that fits seamlessly into how the College operates."

Ryan Carter,
Head Porter
Trinity College Cambridge
