About Verkada

Designing the OS for enterprise buildings

At Verkada, we're on a mission to modernize enterprise physical security.

Today, we offer a suite of connected security devices that provide users with a full picture of the health and safety of their environments. Designed with simplicity in mind, Verkada's ecosystem of best-in-class solutions provide a scalable way to easily configure, monitor and respond to events from anywhere.

Trusted by over 13,000 organizations, including 43 Fortune 500 companies, Verkada remains at the forefront of enterprise building technology.

One platform to manage security across sites

Verkada Command is a cloud-based platform that integrates insights across the entire suite of Verkada products, including video security, access control, sensors, alarms, visitor management, and mailroom products.

Infinitely scalable

Add an unlimited number of devices, sites and users to Command's centralized platform without complicating the user experience.

Zero-touch maintenance

Automatic updates continuously deliver the latest features and security enhancements.

Seamless user management

Help ensure platform security with role based access, single sign-on, 2-factor authentication, and active directory solutions.

Live event-based monitoring

Gain real-time visibility into all devices across all sites from a single pane of glass.

Manage from anywhere

Access all your Verkada devices and manage physical security on-the-go from our intuitive Command app.

Explore Command

Scan the QR code or visit verkada.com/command to discover why Command is not just another video management platform.

Video Security

Powerful video security without the complexity

Verkada's hybrid cloud video security cameras offer the reliability of a solid state storage with the flexibility of cloud archiving, providing teams with the most scalable way to store critical footage.

Reduce hardware overhead

No NVRs, DVRs or on-prem servers to manage. Cameras feature built-in onboard storage with up to 365 days of retention.

No single point of failure

Even in the event of network outages, cameras record locally; once connectivity is restored, feeds are available for viewing.

Bandwidth-friendly

Rather than streaming footage around the clock, cameras only stream when viewed and operate at 20–50kbps at a steady state.

Quickly surface meaningful events

Verkada cameras utilize the latest in AI and edge-based processing to uncover actionable insights in the real time.

What is hybrid cloud video storage?

Cameras

Built-in onboard storage;
No NVRs or DVRs
Bandwidth friendly
(20–50kbps in steady state)
Single Ethernet cable (PoE)
to operate

Cloud (AWS)

Seamless access to all cameras
Unlimited storage for
archived clips
HTTPS/TLS encryption
30-days cloud backup
included

Software

Intuitive browser-based
user interface
Modern user authentication
(SAML 2.0, 2FA)
No plugins or downloads
required

“ It took over half an hour to isolate and produce footage on our old system, if it recorded at all. With Verkada, I can retrieve anything I need in under five minutes with just my thumb. I’m 100% satisfied with how easy and reliable it is. ”

Bruce Johnson
IT Director

Video Security

the most scalable, actionable,
and easy to use video security
solution on the market.

Dome Series

Durable and versatile, the Dome Series features up to 4K sensor resolution and powerful onboard processing for an enhanced streaming experience.

Bullet Series

Built to withstand the toughest environments, the Bullet Series features a sealed aluminum housing, ensuring cameras stay protected.

Mini Series

Designed for flexibility without compromise, the Mini Series features low-profile form factors that deliver exceptional image quality.

Fisheye Series

Best for dynamic viewing, the Fisheye Series captures footage in a 180° panoramic view, a fourway split view, or an immersive 360° view with digital pan-tilt-zoom.

Access Control

Hybrid-cloud Access Control with intuitive software and easy-to-install hardware

Verkada Access Control combines enterprise-grade access control with a powerful, intuitive cloud management platform to provide you with a solution to secure every site, door and user.

Every site

Verkada's cloud-based system configures instantly with easy-to-install hardware that seamlessly connects to our powerful, intuitive software platform, Verkada Command.

Every door

Connect wired, wireless, online or offline doors to Verkada Command to configure and connect every door in your organization.

Every user

Integrate user profiles from your single-sign-on system and configure user profiles in Command to easily design, print and issue physical or mobile credentials.

Use your mobile device as a hands-free digital keycard with the **Verkada Pass App**.

Leverage BLE unlock for touchless entry

Activate lockdowns in real-time

Easily assign, restrict and revoke access to users

Access Control

Simple to install—
always up-to-date

4-door controller

The AC41 brings plug and play simplicity to enterprise Access Control. The AC41 supports existing door hardware and card readers while enabling cloud-based access to a limitless number of doors and events occurring across your organization.

Multi-format door reader

The AD31 delivers simultaneous support for low and high frequency card formats to provide seamless entry across your doors.

IO controller

With 16 AUX inputs and 16 outputs, the AX11 IO Controller integrates more of your building infrastructure into the Verkada ecosystem—including access control, security footage, sensors, and alarms.

Electromagnetic locks

Secure more doors by integrating with the Schlage AD Series (AD300, AD400, PIM400) and the Engage Series (NDEB, LE, LEB) wireless locks.

“ In an emergency scenario, we can lockdown the campus directly from the mobile app... In which case the system will override all door schedules, lock down all buildings, and secure the entire campus in seconds. ”

Dennis Haynie
Executive Director of Technology, Andrews Independent School District

Environmental Sensors

Gain new levels of insights into your organization

Stay ahead of unseen threats across your environments with Verkada's all-in-one sensor.

Proactive SMS alerts

Get notified instantly of unusual changes across your environment that surpass pre-configured thresholds.

Visual insights for investigations

Leverage sensor data to measure events that lead to increased equipment maintenance cost, such as HVAC and server room fluctuations.

Save costs over time

Sensor data can be used to measure events that often lead to increased maintenance costs of equipment.

Environmental Sensors

One sensor that does it all

The SV11 includes eight sensor readings to provide your organization with a simple solution for monitoring a wide range of changes across your environments.

Temperature

PM2.5

Air quality index

Vape detection

TVOCs

Humidity

Noise

Motion

“ The sensors were up for three days before I received my first text alert that someone was vaping in the bathroom. We now have a camera that overlooks the main corridor outside the bathrooms, so when vape smoke is detected we have immediate video context into the situation. ”

John Langrill
Director of IT and Campus Management, Chartwell School

Environmental Sensors

Use Cases

Leverage sensor data to detect and be alerted of unseen threats in your environment.

Worker health & safety

Have a record of being in compliance with OSHA noise regulations, and reduce the time required for audits.

Server room monitoring

Leverage sensors for vape and smoke detection; pair with public-facing cameras for additional context.

Vape detection

Leverage sensors for vape and smoke detection; pair with public-facing cameras for additional context

Mold prevention & food storage

Measure humidity during hot months to avoid moisture build-up and mold formation.

Cleaning schedules

Validate that cleaning is occurring on a regular basis by tracking TVOC levels

Infrastructure protection

Monitor the PM2.5 and AQI readings to determine if HVAC maintenance – such as replacing air filters – is needed.

Alarms

Integrated alarms and professional monitoring

Detect and respond to real-time threats with cloud-managed intrusion detection and 24/7 professional monitoring.

Simple setup and configuration

Customize alarm triggers and response workflows with an intuitive interface that requires no additional software or complicated setup.

Natively integrated

Instantly connect and manage Verkada cameras, doors, environmental sensors, panic buttons, and intrusion sensors under a single dashboard.

Professional monitoring

Eliminate false alarms with unlimited video verification and optional emergency dispatch by a team of trained security professionals.

Cloud managed

Enable secure remote access, schedule arming and disarming of sites, and configure keycodes using any device from anywhere.

Alarms

Around the clock security

Gain peace of mind by ensuring your sites are protected 24/7 with Verkada's professional monitoring service.¹

Detection before intrusion

Verkada cameras with video monitoring are able to detect suspicious activity and send the police before an intrusion event occurs.

Faster response times

When an alarm is raised, agents immediately review footage and contact your predetermined call list. If there's a visible emergency in progress, agents will dispatch local first responders.

Reduce false alarms

With built-in unlimited video verification, agents can assess possible threats and screen out false alarms.

¹ Professional monitoring is provided by 3 U.S.-based, fully redundant, UL Listed, TMA 5 diamond rated monitoring centers with a team of trained security professionals

Alarms

Integrated intrusion detection

Wireless and wired sensors, cellular backup, and a multifunctional security console for complete building coverage.

Wireless sensors

Wireless motion, door, glass break, and water sensors. Optimized for security, range, and battery life.

Wired panel

32 inputs to connect new or existing wired sensors. 2 programmable outputs.

Cellular backup

Multiple LTE networks with automatic failover to provide backup to your wireless or wired sensors.

Console

Arm/disarm, two-way talkdown, live video, text-to-speech announcements, and more.

Call for help anytime, anywhere

Wireless panic button

Ensure your employees can immediately and discreetly call for help.

Integrates with cameras to immediately pull up live video if a button is pressed

Can be mounted on a table or desk, or worn on a lanyard or belt

Choose who to alert when the button is pressed, call the police, lockdown doors, turn on a siren, and more

Strengthen security while simplifying visitor management

Increase the security of everyone in your building—employees and guests. Customized check-in types, camera and Access Control integration, and role-based permissions makes visitor management a simple, seamless experience.

Improve the guest experience

With tailored flows based on guest type, touchless check-in, instant arrival notifications and remote unlock, guests feel welcome the moment they step through the door.

Centralize security

Integrated into the Command platform, Guest works seamlessly with Verkada Cameras and Access Control. See when visitors arrived and double-click into visitor logs to review activity of specific individuals.

Simple setup and configuration

Set up in as little as 10 minutes. Simply download the Verkada Guest app and add an iPad and badge printer to the Command platform. Or personalize further with custom branding, custom guest flows or by selecting location-specific user permissions.

“ The integrated view of visitor activity within Command is a game changer. With Guest, we’ve created a safer environment for our teachers and students, while eliminating error-prone logbooks. ”

Meredith Essalat
Head of School, Mission Dolores Academy

Take the work out of mailroom management

Reduce manual processes of logging and managing deliveries. Simply scan the label on any parcel and Verkada Mailroom will instantly notify the recipient – no hardware required.

Streamline mailroom operations

In just one click, Mailroom scans the label, matches the name to an employee in your directory, sends a notification, and tracks delivery details in a centralized dashboard.

Ensure employees never miss a package

Receive automated notifications and reminders across Slack, SMS, and email to ensure that employees never forget their packages. Photos and printed labels help employees to find their delivery.

Make your mailroom more secure

With Verkada's camera integration, office managers can easily safeguard assets with a live view of all mailroom activity and a historical snapshot of when the package got scanned.

Key features

All the features you need to welcome visitors and maintain visibility and control of your building's security.

- 

Label OCR scanning
- 

Package photo validation
- 

Automatic pickup reminders
- 

Mailroom dashboard
- 

User directory integration
- 

Instant recipient notifications
- 

Filterable search
- 

Verkada camera integration

Trusted by organizations across the world

Get trial camera

We'd love to have you join hundreds of professional service firms in choosing Verkada's hybrid cloud solution.

In just 10 minutes, our camera systems are online and fully operational. Best of all? Verkada offers unlimited user seats at no additional cost, so you can share the benefits of our modern solution with anyone in your organization.

Get started with a free trial by scanning the QR code or visiting **verkada.com/try**

Your 30-day trial includes

- New hybrid cloud camera
- Unlimited cloud video archiving
- Support from US-based team
- Full access to Command software
- Pre-paid return shipping label
- Alarms trial with virtual guard is included
